

KoverArtist 0.7 available for Mandriva Linux 2010.2

KoverArtist is a program for the fast creation of covers for cd/dvd cases and boxes. The main idea behind it is to be able to create decent looking covers with some mouseclicks.

KoverArtist è un programma che rende facile ed intuitiva la creazione di cover per cd e dvd.

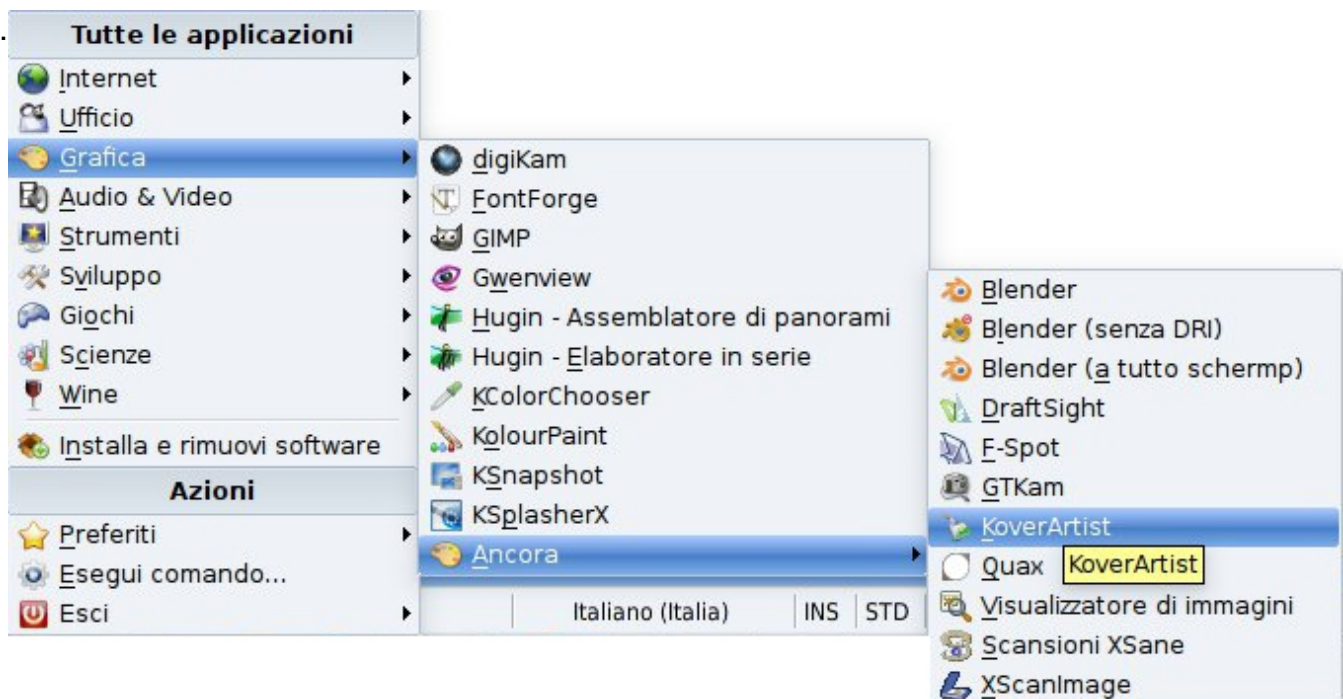

Già presente per Mandriva sino dalla 2008.1 è stato abbandonato.

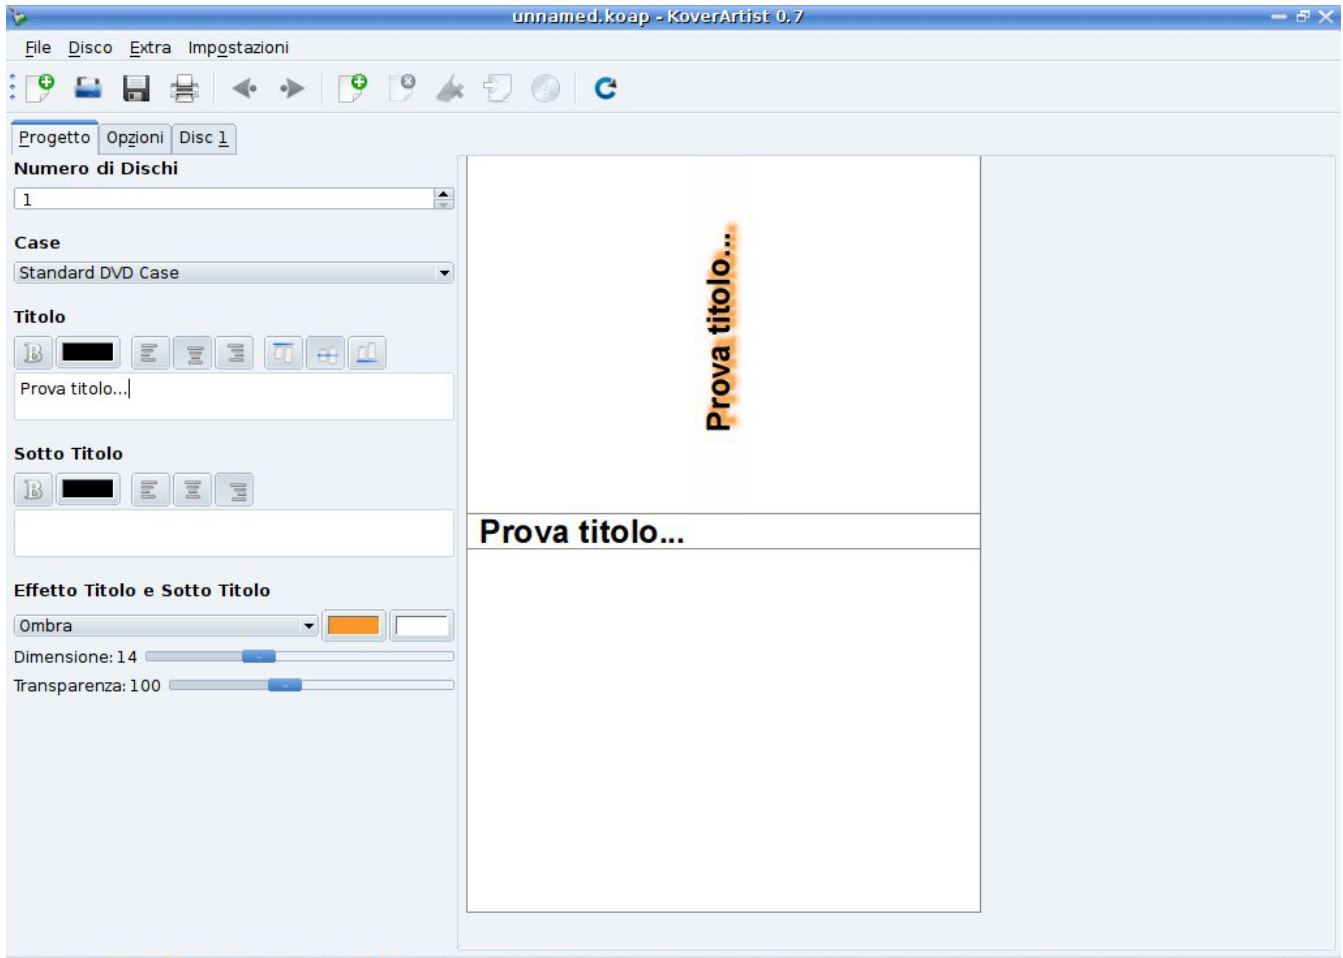

Essendo da poco terminato il porting per KDE4 ci è sembrato opportuno renderlo nuovamente disponibile per la nostra distribuzione.

The image shows the front and back covers of a DVD case for Star Trek: Deep Space Nine - Season 1. The front cover features a large, metallic, spherical structure (the Bajoran Orb) against a dark space background. The text 'STAR TREK DEEP SPACE NINE' is written vertically on the right side, with 'Season 1' below it. The title 'Star Trek Deep Space Nine - Season 1' is printed horizontally across the bottom. The back cover shows the main cast members of the series in a blue corridor. The text 'Star Trek Deep Space Nine - Season 1' is printed vertically on the left side. Below the cast photo, there is a list of episode titles organized by disc: Disc 1 (Emissary, Part I; Emissary, Part II; Past Prologue; A Man Alone; Babel), Disc 2 (Captive Pursuit; O-Less; Day; The Passenger; Move Along Home), Disc 3 (The Nagus; Vortex; Battle Lines; The Storyteller; Progress), and Disc 4 (If Wishes Were Horses; The Forsaken; Dramatis Personae; Duet; In the Hands of the Prophets).
