

**Servicemenu-pdf 0.3.5** disponibile per Mandriva Linux 2010.0 & 2009.1

Servicemenu-pdf is a KDE Service Menu

**Sito web:**

<http://www.kde-look.org/content/show.php/?content=37321>

**Descrizione:**

Servicemenu-pdf estende le funzionalità di konqueror/dolphin aggiungendo dei sub menu attivabili con il tasto destro del mouse sul file.

Questo software è simile alle azioni di Nautilus di Gnome. Tali azioni sono relative al file pdf. È possibile unire, ruotare, impostare la password, decomprimere, estrarre, riparare, bloccare, sbloccare, effetto filigrana, convertire in formato html, convertire in immagini, convertire in testo e molte altre azioni. È possibile convertire un documento pdf in opuscoli.
