

**Banshee 1.5.0** for Mandriva Linux 2009.1

### Media Player

Banshee is a program based in Mono libraries.

With Banshee you'll be able to listen you favourite music based in mp3, wav, ogg, and a lot of more types of sound files. Banshee supports ipods, podcasts, audio-cd and all type of external usb.

You can listen music from internet radio or scrobbling from LastFM. Moreover, you can see all type of videos.

You can edit your own music lists and save them in a data's base. And you can download the covers of your favourites musical groups, or obtaining relationships about your music from LastFM, and you can rate your songs, too.
