Aggiornamento per fix problemi, ed altro:

**Transmission 1.82 (2010/01/23)**

  All tickets closed by this release

#### All Platforms

- Fix 1.80 bug that misparsed some magnet links
- Fix 1.80 bug that caused startup to be very sluggish for some people

### Transmission 1.80 (2010/01/20)

  All tickets closed by this release

#### All Platforms

- Add support for magnet links
- Add support for trackerless torrents
- Add optional "incomplete directory" where partial downloads are stored
- Add .part to incomplete files' filenames
- Find more peers by announcing to each tier in a torrent's tracker list, rather than only one

- Fix vulnerability from maliciously-crafted torrent files that could overwrite other files
- Improved IPv6 support
- Improved PEX sharing with other peers
- Faster management of large peer lists
- DHT improvements to bootstrapping and IPv6
- Newly-added torrents without local data don't wait in the "Verify Local Data" queue anymore
- Add an OS hint to not cache local data during torrent verification
- Use less CPU when making encrypted handshakes to peers
- Better filtering of bad IP addresses
- Fix bug that gave "too many open files" error messages
- Fix bug that could crash Transmission on shutdown
- Fix bug that could unpause or repause a torrent on startup
- When uploading, improve disk IO performance by prefetching the data in batches
- Portability fixes for embedded systems
- Other small bugfixes and improvements

#### GTK+

- Support org.gnome.SessionManager? interface for inhibiting hibernation
- Added support for adding torrents by URL or magnet link
- Add optional "download complete" sound using the XDG sound naming spec
- When creating a torrent, make it easier to auto-add that new torrent
- New statusbar "Ratio" icon submitted by jimmac
- Fix minor memory leaks
- GNOME HIG improvements

### Daemon

- When running as a daemon, send log messages to syslog
- Reload settings.json when receiving SIGHUP
- transmission-remote now allows per-torrent speed limits to be  set

### Web Client

- Add speed limit "turtle mode" support
- Double-clicking a torrent opens/closes the torrent inspector
- Add "Start When Added" checkbox when adding torrents
- Add Select All / Deselect All buttons to the file inspector
- Add version information to the preferences dialog
- Ensure the context menu goes away when clicking on torrents
- Fix bug that obscured part of the context menu
